

Innovation Area

Joint stand promoting future technology

CeBIT
Join the vision

Contact forum for innovative technologies and for strategic partnerships supporting international market expansion.

HANNOVER, 9.–15.3.2006

The Initiative

The "Innovation Area" is a marketplace for innovative entrepreneurs and a hub for contacts to German and international cooperation partners and investors following the motto:

Contacts, know-how, cooperations and capital

The area allows high-tech companies with new developments to meet potential customers from the Old Economy who are interested in using their solutions in pilot projects and with strategic partners who can help them tap new markets. The "Innovation Area" uses its large network to accelerate business success and growth and improve companies ability to compete.

Conquering markets

Business success calls for rapid access to the European market. The Innovation Area promotes contacts to international cooperation's who can help companies tap new, booming markets, especially in the new EU member states.

Supporting Future

We invite established companies –the Old Economy – to support the "Innovation Area" in the sense of the various innovation initiatives by governments and other organizations.

The Innovation Area, an initiative of the IT-Adventure Network, enjoys the support of the following organizations:

Ernst&Young, KfW/tbg, Fraunhofer Society, Euro-CASE, Deutsches Innovationsforum, the trade associations VDE, eco and BAND e.V. , Munich Network e.V. and a number of companies including Microsoft, IBM, Cisco, IDS Scheer, Datev, O2, DaimlerChrysler, Unilog Systems Integration.

Meeting experts

Other attractions include panel discussions with prominent experts, which give attendees a compact look at collaboration , capital and technology topics and valuable ideas for ICT solutions e.g. Linux and IT-Security.
